

TECHNICAL DATA SHEET

F&L's racing methanol has a purity of 99.95%, the highest purity the industry can provide. Because of the high purity and consistent quality this is the go-to Methanol racers trust for all of their high-performance methanol racing applications. All F&L racing methanol drums are new and sealed at the same drumming facility to insure that regardless of where you purchase F&L, you will know that the quality and consistency is the same.

Fuel Family:	Specialty Racing Fuel
Fuel Name:	Methanol
Purity (wt%):	99.9
Apperance:	Clear & Free
Color (Pt-co):	<5
Water (%wt):	0.001
Density @ 20C:	0.7923

QUALITY. INTEGRITY. PERFORMANCE.
