

## TECHNICAL DATA SHEET

Today's motorcycle & powersports engines are becoming more and more High Performance. With the increase in performance demands comes the need for a fuel that will perform better and provide a consistent quality, better than local pump gas. F&L Moto racing fuel is the perfect fuel for that application. Moto can be run without any special engine tuning. Just pour it in and experience increased performance in your motorcycle or powersports application.

Fuel Family:	Powersports Racing Fuel
Fuel Name:	Moto
Octane (R+M)/2:	95.5
RON:	102.0
MON:	89.0
Specific Gravity:	0.740
RVP:	4.40
Oxygenated:	3.6%
Leaded:	No
Stoichiometric Ratio:	14.02
Color:	Light Green

# QUALITY. INTEGRITY. PERFORMANCE.
