

TECHNICAL DATA SHEET

F&L SP-1 is a specially designed leaded racing fuel for today's high-performance engines. When it comes to performance and throttle response, SP-1 delivers. Our SP-1 formula protects against harmful pre-detonation in engines with compression ratios of up to 14.5:1 while providing cooler running exhaust temperatures. It is legal for competition in all major sanctioning bodies. Recommended applications are off-road, road, oval track, endurance racing, PWC, offshore powerboats, drag racing, motorcycle, road racing and motocross.

Fuel Family:	Leaded Racing Fuel
Fuel Name:	SP-1
Octane (R+M)/2:	110.6
RON:	113.2
MON:	108.1
Specific Gravity:	0.710
RVP:	4.80
Oxygenated:	No
Leaded:	Yes
Stoichiometric Ratio:	14.95
Color:	Green

QUALITY. INTEGRITY. PERFORMANCE.
