

TECHNICAL DATA SHEET

F&L SP-100 is an ethanol free, non-oxygenated, leaded racing fuel specially formulated for crate motors used in the high demands of the race environment. Designed for lower compression engines, up to 11:1 compression that operate for extended high RPM's and are not equipped with catalytic convertors. F&L's SP-100 is the perfect blend for your high-performance crate motor application.

Fuel Family:	Leaded Racing Fuel
Fuel Name:	SP-100
Octane (R+M)/2:	100.45
RON:	103.0
MON:	97.9
Specific Gravity:.....	0.726
RVP:.....	6.20
Oxygenated:.....	No
Leaded:.....	Yes
Stoichiometric Ratio:	14.83
Color:	Olive

QUALITY. INTEGRITY. PERFORMANCE.
