

TECHNICAL DATA SHEET

F&L SP-4 is a high-performance leaded racing fuel designed for engines with compression ratios that exceed 15:1. SP-4 is an excellent choice where sustained high RPM/high-load conditions require a fuel that will meet these demands. An excellent performer in ultra-high-performance engines, this fuel is legal for use in all major sanctioning racing organizations. With a (R+M)/2 of 115 octane, SP-4 is designed to increase horsepower while protecting against pre-detonation and vapor lock.

Fuel Family:	Leaded Racing Fuel
Fuel Name:	SP-4
Octane (R+M)/2:	115.5
RON:	119.0
MON:	112.0
Specific Gravity:	0.708
RVP:	4.45
Oxygenated:	No
Leaded:	Yes
Stoichiometric Ratio:	14.97
Color:	Purple

QUALITY. INTEGRITY. PERFORMANCE.
