

## TECHNICAL DATA SHEET

The ultimate performer in ultra-high compression, turbo and supercharged engines. F&L S/T is specifically designed to handle compression ratios to 16:1 and 35 lbs. of boost. An excellent high-performance fuel with a high (R+M)/2, 117 octane rating. Primarily used for drag racing, but suitable for other high-compression engine demands.

Fuel Family:	.....	Leaded Racing Fuel
Fuel Name:	.....	S/T
Octane (R+M)/2:	.....	115.7
RON:	.....	118.1
MON:	.....	113.4
Specific Gravity:	.....	0.705
RVP:	.....	4.25
Oxygenated:	.....	No
Leaded:	.....	Yes
Stoichiometric Ratio:	.....	14.99
Color:	.....	Red
