

TECHNICAL DATA SHEET

F&L TT racing fuel is the perfect choice for races whose engines are operated for extremely long periods at high engine temperatures. Whether you are road racing, circle track racing or battling it out in brutal off-road racing conditions of Baja ... TT will provide you with the best performance. TT is also perfect for the high-performance demands of offshore boat racing when there is a need for a fuel to combat high boost and high RPMs. TT is designed for compression ratios of up to 15.5:1.

Fuel Family:	Leaded Racing Fuel
Fuel Name:	TT
Octane (R+M)/2:	116.1
RON:	120.3+
MON:	112.0
Specific Gravity:	0.724
RVP:	6.50
Oxygenated:	No
Leaded:	Yes
Stoichiometric Ratio:	14.83
Color:	Blue Green

QUALITY. INTEGRITY. PERFORMANCE.
